Give an old bed linen another chance
Organic, a set of embroidered photo collages

Sophia Keller Girón

« A picture is a secret about a secret, the more it tells you the less you know »

This statement of the photographer Diane Arbus goes perfectly well with my embroidered photo collages.
It is an invitation to seek in them the dialogue between the embroidery, the images of transforming compost and the fabric as an image carrier.

An old damask bed sheet, possibly washed a hundred times, is used as a print carrier for assembled compost photographs, embroidered and photographed again, giving it another chance to step into a new light.

Organic processes and their results fascinate me and I wish that this appreciation and enthusiasm can be felt when looking at my photo collages.
